

AutoCAD Fundamental- All Disciplines

Introduction

- Welcome to AutoCAD Training! This program is designed to equip you with essential skills in using AutoCAD, a leading computer-aided design (CAD) software.
- Learn to create precise 2D, enhance your drafting abilities, and boost productivity.
- Through hands-on learning, you'll learn to create precise 2D, understand various tools and commands, and the basics of drafting.

Learning Outcomes

- Upon completion of AutoCAD training, participants will gain proficiency in creating precise 2D, utilizing a range of tools and commands.
- Participants will become proficient in using essential drawing tools like lines, circles, rectangles, and polygons to create precise 2D drawings.

Why Choose Skill Hub Academy ?

- Industry-Focused BIM Training with real-world project. workflows
- Expert Mentors with practical experience in global AEC projects Hands-On Learning using Autodesk Revit, Navisworks & BIM tools
- Career Support & Skill Development to help students grow professionally.

Essential Course Details

30 Hrs.Training

1Hrs. Daily on weekdays and
4Hrs. on one weekend
1 Hrs.Offline class

Target Audience:

Students, architects, engineers, drafters, and design professionals seeking to enhance their AutoCAD skills for 2D.

Training includes:

- Understanding the Concept of the Coordinate System.
- Working with drawing and modifying tools.
- Working with layers and managing layers.

Course Certificate:

Upon completion of the Autodesk Course. Completion Certificate will be provided.
